Objective: To demonstrate effective, fluid, and balanced hind-end isolation from the halt.

Regulations: Liberty Handling

Turn On Haunches, Toward the Direction of Bend

- When moving **toward** the bend, the **outside front** remains still or marches in place.
- The equine maintains impulsion (all legs cross in front, the equine's muscles are engaged, the equine is ready to move forward at any point before, during, and after this movement).

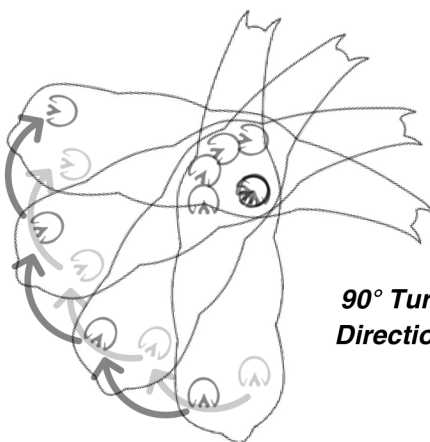

90° Turn Toward the Direction of the Bend

Turn On Haunches, Toward the Direction of Bend

- When moving **away** from the bend, the **inside front** remains still or marches in place.
- The equine maintains impulsion (all legs cross in front, the equine's muscles are engaged, the equine is ready to move forward at any point before, during, and after this movement).

90° Turn Away From Direction of the Bend

Liberty Classes: Calm Default, Backing

Objective: To demonstrate an effective, solid, and fluid calm default behavior at liberty.

Regulations: Liberty Handling

CALM DEFAULT - SIDE

From either side of the equine, the handler should stand still (vocal or stationary body language cues permitted). The equine should stand calmly and patiently with their head forward or away from the handler, ideally with a low headset (poll below the wither)

CALM DEFAULT - FRONT

From the front of the equine, the handler should stand still (vocal or stationary body language cues permitted). The equine should stand calmly and patiently with their head down or away from the handler, ideally with a low headset (poll below the wither)

BACK AWAY, 2 STEPS

From the front of the equine, the handler gives their cue. The equine backs two steps away from the handler, who must remain stationary during backing.
