# Ridden Classes: Calm Default, Backing

**Objective:** To demonstrate an effective, solid, and fluid calm default behavior during riding.

**Regulations:** Ridden Handling

**CALM DEFAULT - UNDER SADDLE**

While the equine is halted, the handler should remain still and balanced in the saddle. The equine should stand calmly and patiently with their head forward.

**REINFORCEMENT - UNDER SADDLE**

Remaining balanced in the saddle, the handler delivers reinforcement from either side of the equine. The equine also remains balanced & reaches gently to retrieve reinforcement.

**BACK 2 STEPS - UNDER SADDLE**

From a balanced and stationary halt, the handler gives a distinct cue and the equine backs two steps, signaling the end of the performance.
